

Choosing a Decorator

Benefits Of A Professional Decorator

- Choosing your decorations for ceremony and reception can be made very easy with the assistance of a professional Decorator or Event Stylist. A decorating consultant will be able to assist you with your theme and colours, create the style of wedding you want while giving you the peace of mind that your decorations are organised by a professional.
- Hiring a professional decorator to work with you on your wedding style can help to keep you within your budget while reducing your workload. They will listen, offer you choices, organise and supervise.

Decorating Ideas

- Tablecloths, chair covers and napkins change the appearance of a venue. Have the linen match or compliment your colours.
- A light romantic fabric can be used to soften any look. Hang it from the ceiling, drape it over tablecloths, or around chairs.
- For decorating the aisle if flowers are going to blow your budget, use wide soft ribbon to tie to chairs.
- Vases and glass bowls of all shapes and sizes make great table centre-pieces. Combined with candles, flowers and some table scatters you can create an elegant table setting without the high price tag. Speciality stores are great for finding all sorts of inexpensive items.
- Lighting can add a dramatic effect or create romantic ambience. Candles provide great mood lighting as do table lamps and lanterns. Check your venues policy on lit candles.

Our Tip

Flowers are one of the best ways to decorate a room. They will add colour, style and freshness to any table setting. Great for centre-pieces, arrangements and cake decorations.
